Nursing Informatics Boot Camp

• Susan K Newbold Biography:

Susan K. Newbold, PhD RN NI-BC FAAN FHIMSS FAMIA is a Healthcare Informatics Consultant, Franklin, TN. She is uniquely qualified to teach this course as she has experience in the vendor, consulting, academic and hospital worlds. Dr. Newbold is Board Certified in Nursing Informatics and initiated the first review course in nursing informatics in 1995. Susan has written numerous publications in Nursing Informatics. She is the HIMSS 2015 Chapter Leader of the Year awarded in 2016. Dr. Newbold is the Recipient of the Sigma Theta Tau International Honor Society of Nursing 2019 Virginia K. Saba Nursing Informatics Leadership Award and the 2023 AMIA Virginia K. Saba Informatics Signature Award.

The second speaker is selected based on availability from a pool of candidates with recent informatics experience.

Healthcare Informatics Education

Nursing Informatics Boot Camp

FOLLOWS THE 2023 TEST CONTENT OUTLINE OF THE ANCC.

This course goes beyond the ANCC outline to discuss current trends and issues.

Taught by informatics professionals with recent healthcare informatics experience.

COURSE DESCRIPTION

This intensive two-day course focuses on current informatics trends and issues in health. It includes content for nurses interested in becoming Certified Informatics Nurses. Other clinical professionals working in informatics may wish to take the course to become exposed to the course topics.

The Nursing Informatics Boot Camp has been approved for 14.0 total contact hours of continuing nursing education.

This nursing continuing professional development activity was approved by Montana Nurses Association, an accredited approver with distinction by the American Nurses Credentialing Center's Commission on Accreditation.

COURSE OBJECTIVES

1. Discuss the scope and standards of nursing informatics practice
2. Describe professional practice, trends and issues within the informatics nurse role
3. Explore management and leadership issues affecting informatics in healthcare settings
4. Identify key concepts in informatics, information technology, information management, knowledge generation and data security
5. Consider human factors in relation to information technology systems
6. Describe models and theories associated with informatics
7. Delineate steps of the system life cycle as it applies to information technology in the health setting

TOPICS

√ Foundations of Practice
√ System Design Lifecycle
√ Data Management and Healthcare Technology
√ Current Issues
√ Case Studies
